Hi Ken,

Yes, my next resort would be to ask Jack Oman.  
I'm pretty sure they have those shapefiles.

Let me know if your GIS guy is going to be out of pocket for several more days, and I'll do contact ARC.

Jeryl

Hi Dave:

We do have shapefiles, but they reside with our GIS folks in Redding CA. I sent an email to the project's GIS analyst to see what he could pull together quickly, but note that he has been 'offline' for 2 days (working remotely or on vacation). However, we did not 'create' the shapefiles but instead got them from ARC/B&C. Is that an option for sourcing the shapes to BLM?

Ken,  
Do you happen to have the electronic files Dave Davis is looking for?  
Or are they on the Tetra Tech web site?  
Thanks,  
Dave Seter

Hi Dave, I am working on some maps for my managers for Yerington and I have come across maps showing different OU boundaries, so I would like to track down and get a copy of the official shapefile that describes their boundaries and Mine Site Project boundary for my records and map making.

Please advise me where I can locate these shapefiles.  
Thank you,
